4. COST-MATCHING: ASHC-DELIVERED INITIATIVES

4.1. The requirements related to Cost-Matching set out in the Agreement apply to this Schedule, as more specifically set out below:

- (a) By March 31, 2021, the total Commitments of Cost-Matched Funding under this Schedule B must at least be equal to the total of CMHC Funding paid pursuant to subsection 3.1 above, for the Fiscal Year ending March 31, 2020. By March 31, 2022, the total Commitments of Cost-Matched Funding must be at least equal to the total of CMHC Funding paid pursuant to section 3.1 above, for the Fiscal Years ending March 31, 2020 and March 31, 2021. By March 31, 2023, the total Commitments of Cost-Matched Funding must be at least equal to the total of CMHC Funding paid pursuant to subsection 3.1 above, for the Fiscal Years ending March 31, 2020, 2021, and 2022.
- (b) PT Funding and Municipal Funding combined that are committed and disbursed shall not be less than 50% of the total Cost-Matched Funding required by subsection 4.1(a) above.
- (c) ASHC will refund to CMHC any amounts of the CMHC Funding paid that exceed the totals of subsection 4.1(a) and (b) of this Schedule B for Commitments of Cost-Matched Funding.

5. COMMITMENTS: ASHC-DELIVERED INITIATIVES

5.1. ASHC is responsible for making all Commitments.

5.2. Commitments of CMHC Funding may be made from and after April 1, 2019 to no later than March 31, 2022. Commitments of Cost-Matched Funding may be made only from and after April 1, 2018 to not later than March 31, 2023.

5.3. ASHC commitments will follow established Alberta practices. When ASHC provides funding for a Project or to a Recipient under this Agreement, ASHC shall require a contribution agreement for each Project and appropriate agreements with or arrangements for each Recipient, setting out the terms and conditions (reflecting the requirements of this Agreement) for contributions for the Project or to the Recipient. These agreements or arrangements shall ensure, where appropriate, that Housing meets affordability criteria as established by ASHC, allow ASHC to monitor to ensure compliance with those criteria and requirements under this Agreement, and allow for remedies for non-compliance. Contributions, whether by way of CMHC Funding or Cost-Matched Funding or both, shall not be structured as loans other than to secure correction or recovery in the case of non-compliance. Where ASHC is the intending owner and operator of a Project, ASHC's recording of its approval, commitment and terms and conditions for the Project is equivalent to its approval of and a contribution agreement for the Project.

- 5.4. Where a Commitment is cancelled or reduced, or a Project or Recipient is non-compliant in whole or materially in part, then the affected CMHC Funding or Cost-Matched Funding or both will be considered to remain committed, provided that ASHC recommitments the affected CMHC Funding or Cost-Matched Funding within the same Fiscal Year in which the cancellation, reduction, or Project or Recipient non-compliance occurred, but not later than March 31, 2023.
- 5.5. Consistent with Alberta's established practices, ASHC may enter into arrangements with municipalities, service managers, Indigenous program administrators or other persons or bodies to perform functions that are the responsibility of ASHC under this Schedule B. Notwithstanding any such arrangements, ASHC remains directly responsible and CMHC will relate and look to ASHC alone in regard to these functions.

6. PAYMENTS OF CMHC FUNDING AND INFORMATION ON COMMITMENTS

- 6.1. Payment of CMHC Funding is subject to the conditions set out in subparagraph 7.5 of the Agreement.
- 6.2. ASHC will use the Claims Form attached as part of Schedule C to request payments of CMHC Funding and to provide information regarding Commitments (including any starts, completions, disbursements to Projects, as well as any cancellations, reductions, or Project or Recipient non-compliance not considered to remain committed and any recommitments under subsection 5.4 of this Schedule), at a minimum on a quarterly basis where ASHC has Commitments in place, and in accordance with Schedule C. ASHC will ensure that Claims submitted support the Action Plan. Notwithstanding the foregoing, CMHC acknowledges that variation in Targets and Outcomes may occur and is permitted, where reasonable and will not, in and of itself, result in a breach of this Agreement or the withholding of CMHC Funding under a Claim.
- 6.3. The final Claims Form for CMHC Funding for any Fiscal Year must be received by CMHC not later than the last business day of the relevant Fiscal Year.

7. DISBURSEMENTS: ASHC-DELIVERED INITIATIVES

- 7.1. ASHC is responsible for disbursement of CMHC Funding and Cost-Matched Funding for each Project and to each Recipient. CMHC Funding and Cost-Matched Funding must be disbursed to Project and Recipients in accordance with this Agreement not later than four years following the date of Commitment, but in any event not later than March 31, 2027 or, in the case of ongoing contributions, within twenty years following the date of Commitment but not later than March 31, 2043.
- 7.2. ASHC will refund to CMHC any CMHC Funding which is not disbursed in accordance with the Agreement or that exceeds the total of Cost-Matched Funding disbursed in accordance with subsection 7.1 above.

CMHC – ALBERTA**BILATERAL AGREEMENT UNDER THE 2017 NATIONAL HOUSING STRATEGY****SCHEDULE C: ACTION PLAN
(Agreement subparagraph 4.1)****Action Plan**

ASHC will develop and publish a 3-year Action Plan beginning in Fiscal Year 2019/2020 outlining how ASHC will use CMHC Funding and Cost-Matched Funding under this Agreement towards achieving outcomes and set targets for indicators and expected results.

ASHC will ensure that the Action Plan meets the requirements of this Agreement and aligns with the principles and outcomes set out in this Agreement and in the FPT Housing Partnership Framework.

Housing Need is addressed either by eliminating, significantly reducing or reducing Housing Need through one or more of the standards of Affordability, Suitability and Adequacy. The Federally Developed Targets, which will inform the development of the mutually agreed-to Targets and Outcomes and ASHC's Action Plan as set out in subparagraph 4.2 of the Agreement, were developed based on these standards and improving Housing costs as a percentage of total before tax income to: less than 30%, improving by at least 10% of household income, or improving by at least 20% of household income.

CMHC and ASHC will mutually reach agreement on the targets and outcomes, including the indicators and expected results set out below (altogether the "Targets and Outcomes") which will be identified in the Action Plan and identified in the Schedule C: Progress Report. The mutually agreed-to Targets and Outcomes established under this Agreement will build on existing investments and take into consideration factors including local Housing Need and priorities, funding by CMHC and Alberta under this Agreement, the bold federally developed targets, as well as NHS objectives including opportunities for collaboration, efficiency and innovation to leverage available funding. Mutually agreed-to Targets and Outcome may vary across PTs accordingly.

As part of a shared commitment to reduce chronic homelessness year over year, Action Plans will reflect the broader ASHC systems planning approach, including the alignment of housing and homelessness initiatives and the means by which high-vulnerability populations will be prioritized across housing and homelessness programming.¹ CMHC will work with partner federal departments to support alignment of federal housing and homelessness investments.

In addition, the Action Plan will include support for those in greatest need, will be consistent with the principles of participation and inclusion; equality and non-discrimination; and accountability, which encompasses the federal government's human rights-based approach to housing. In so

¹ CMHC acknowledges that NHS investments complement other federal, provincial and municipal investments and initiatives in Alberta made outside this Agreement focused on ending homelessness including supportive housing and activity across other sectors such as health, justice, child welfare and Indigenous relations. Homelessness prevention and supportive housing programs are significant in assisting high vulnerability populations to achieve housing stability.

doing, the Action Plan will complement the federal NHS goal of helping advance the progressive realization of Canada's obligations in relation to housing under the International Covenant on Economic, Social and Cultural Rights (ICESCR).

The Action Plan will cover the Initiatives identified in Schedule B and be revised over the duration of the Agreement (2018/19 – 2027/28) in accordance with the schedule below:

Action Plan Date	Period Covered
Fiscal Year 2019/20	Fiscal Years 2019/20 ² – 2021/22
Fiscal Year 2022/23	Fiscal Years 2022/23 – 2024/25
Fiscal Year 2025/26	Fiscal Years 2025/26 – 2027/28

ASHC will share the Action Plan with CMHC for review at least three (3) months prior to the first day of the relevant Action Plan Period, which will include the mutually agreed-to Targets and Outcomes, and will publicly release the Action Plan in accordance with subparagraph 4.3 of the Agreement.

The Parties acknowledge that reporting will be progressively implemented. A plan with respect to the timing to collect all information needed to report under this Agreement will be mutually agreed-to as part of the first Action Plan, taking into account practical constraints on data collection and respect for personal privacy.

Funding under this Agreement, including under the Canada Community Housing Initiative, will be used to ensure that the same number of Social Housing and Community Housing Units under the Social Housing Agreement, as at March 31, 2019, and agreed to by CMHC and ASHC will continue to be offered as either Social Housing or Community Housing over the course of this Agreement.

For the purposes of this Agreement, CMHC and ASHC agree the following baseline numbers are the number of Social Housing and Community Housing Units under the Social Housing Agreement as of March 31, 2019:

- 23,700 Social Housing Units, of which 21,933 are low-income; and
- Of the total number of Social Housing Units, 507 are Urban Native Social Housing, of which 507 are low-income.

The targets in table 3 (a) below represent the Units that will receive funding under this Agreement, and combined with Units that will receive funding under the Social Housing Agreement represent the number of Social Housing Units that will continue to be offered each year over the course of this Agreement.

CMHC – ALBERTA**BILATERAL AGREEMENT UNDER THE 2017 NATIONAL HOUSING STRATEGY****SCHEDULE E: COMMUNICATIONS PROTOCOL
(Agreement subparagraph 7.11)****1. Purpose**

- 1.1 This Communications Protocol outlines the roles and responsibilities of each of the Parties to this Agreement, as well as those of Project proponents, with respect to Communications Activities related to Projects.
- 1.2 This Communications Protocol will guide all Communications Activity planning, development and implementation with a view to ensuring efficient, structured, continuous, consistent and coordinated communications to the Canadian public.
- 1.3 The provisions of this Communications Protocol apply to all Communications Activities related to this Agreement and any Projects and Recipients receiving funding or benefits under this Agreement.
- 1.4 This Communications Protocol applies to Initiatives under Schedule B to this Agreement and for greater certainty does not apply to Federal NHS Programs under Schedule G to this Agreement.

2. Guiding Principles

- 2.1 For the purposes of this Agreement, "Communications Activity" or "Communications Activities" means, but is not limited to, public or media events or ceremonies including key milestone events, news releases, reports, web and social media products or postings, blogs, news conferences, public notices, physical and digital signs, publications, success stories and vignettes, photos, videos, multi-media content, advertising campaigns, awareness campaigns, editorials, multi-media products and all related communication materials under this Agreement, and includes "Joint Communications".
- 2.2 Communications Activities undertaken through this Communications Protocol should ensure that Canadians are informed of investments made in Housing and that they receive consistent information about funded Projects and their benefits.
- 2.3 ASHC is responsible for communicating the requirements and responsibilities outlined in this Communications Protocol to Project proponents and for ensuring their compliance.
- 2.4 Communications Activities under this Agreement shall refer to equally and give equal prominence and priority to Canada, including CMHC and Alberta, including ASHC. In addition, at the request of ASHC, recognition for Municipal Funding and funding by Indigenous governments directly to Projects and Recipients may also be included in a manner agreed to by the Parties. This paragraph applies to all relevant provisions of this Agreement.

3. Joint Communications

- 3.1 For the purposes of this Agreement, “Joint Communications” means events, news releases, and signage that relate to this Agreement and are collaboratively developed and approved by Canada, Alberta and, where applicable, the Project proponent, and are not operational in nature.

Signage will be mutually agreed upon and will include consideration of current federal signage guidelines. The federal sign design, content, and installation guidelines will be provided by Canada. The Alberta sign design, content, and installation guidelines will be provided by Alberta.

7.2 Where the Project proponent decides to install a permanent plaque or other suitable marker with respect to the Project, it will recognize CMHC and Alberta and be approved by Canada and ASHC.

7.3 If erected, signage recognizing CMHC and ASHC will be installed at the Project site(s) thirty (30) days prior to the start of construction, be visible for the duration of the Project, and remain in place until thirty (30) days after construction is completed and the infrastructure is fully operational or opened for public use.

7.4 If erected, signage will be installed in a prominent and visible location that takes into consideration pedestrian and traffic safety and visibility.

9.2 ASHC agrees to provide annual letters to households in Projects which benefited from the Canada Community Housing Initiative funding, or such other communication as may be appropriate (e.g. signage, plaques) where mutually agreed-to by the Parties, always recognizing CMHC and provincial and municipal's contribution in accordance with 2.4 of this Schedule E. Mutual agreement may not be unreasonably withheld.

10. Advertising Campaigns

10.1 Recognizing that advertising can be an effective means of communicating with the public, Canada and ASHC may, at their own cost, organize an advertising or public information campaign related to this Agreement or eligible Projects, unless agreed otherwise. However, such a campaign will respect the provisions of this Agreement. In the event of such a campaign, the sponsoring Party or Project proponent will inform the other Parties or Project proponents of its intention no less than twenty-one (21) working days prior to the campaign launch.

CMHC – ALBERTA**BILATERAL AGREEMENT UNDER THE 2017 NATIONAL HOUSING STRATEGY****SCHEDULE F: FEDERAL/PROVINCIAL/TERRITORIAL (FPT) HOUSING PARTNERSHIP FRAMEWORK****Long-Term Vision for Housing**

- Federal, Provincial and Territorial Ministers Responsible for Housing agree to a shared vision where:

Canadians have housing that meets their needs and they can afford. Affordable housing is a cornerstone of sustainable and inclusive communities and a Canadian economy where we can prosper and thrive.

- The FPT Housing Partnership Framework is a multilateral agreement that sets the foundation for federal, provincial and territorial governments to work towards achieving this long-term vision. The Framework is grounded in the National Housing Strategy (NHS) and is complemented by provincial and territorial housing strategies. It marks a renewed relationship between Canada and the provinces and territories¹ and commits FPT governments to work together to achieve better housing solutions across the spectrum, from homelessness to market housing.
- NHS shared investments seek to lift Canadians out of housing need; reduce homelessness year-over-year; support the community housing sector; increase housing supply; improve housing conditions and affordability — including for Indigenous peoples and those living in the North; promote social inclusion; contribute to environmental sustainability; and improve economic stability in Canada through job creation, training and support to local enterprise.
- Ministers Responsible for Housing agree that better housing outcomes will be achieved as FPT governments: co-ordinate their efforts; cooperate in the development of housing policies and strategies; build upon existing housing investments and effective housing programs; and share data and information that will make program development and delivery more effective. Ministers further commit to collaborate with many diverse stakeholders and align housing policies and planning with other sectors to create effective housing solutions and vibrant communities.

¹ While it shares many of the objectives sought by other governments, Québec intends to fully exercise its own responsibilities and control over the planning, organization and management of housing on its territory to benefit Québec's population. Accordingly, Québec does not subscribe to the National Housing Strategy (NHS) and hopes to undertake as soon as possible discussions to reach an asymmetrical bilateral agreement, distinct from the NHS, which will fully respects Québec's exclusive responsibility in the area of housing and allows Québec to obtain its share of all federal funding dedicated to housing.

National Housing Strategy Principles

- All NHS investments delivered by FPT governments must respect the key principles of the National Housing Strategy:

People

- Every Canadian deserves a safe and affordable home
- Housing investments must prioritize those most in need, including: women and children fleeing family violence; seniors; Indigenous peoples; visible minorities; people with disabilities; those dealing with mental health and addiction issues; veterans; and young adults
- Housing policy should be grounded in the principles of inclusion, participation, accountability, and non-discrimination

Communities

- Housing programs should align with public investments in job creation, skills training, transit, early learning, healthcare, and cultural and recreational infrastructure
- Housing investments should support Canada's climate change agenda and commitment to accessible communities
- Communities should be empowered to develop and implement local solutions to housing challenges

Partnership

- Good housing policy requires transparent and accountable partnership between the federal government, provinces, territories, municipalities, the social and private sectors, and people with lived experience of housing need
- The community housing sector must be prioritized, protected and grown

Working Together

- The National Housing Strategy is built on strong partnership between the federal, provincial and territorial governments, and continuous engagement with others, including municipalities, regional Indigenous governments and organizations, national Indigenous organizations, the social and private sectors. Canadians benefit when FPT governments work well together.
- Housing issues are inter-related and solutions require a continuum of housing responses and a cross-sectorial, comprehensive approach. This requires co-ordination, horizontal policy integration, and joint planning with other policy sectors. It is critical that the actions on the part of one order of government consider the long-term sustainability challenges for the other.
- Federal initiatives under the NHS are guided by a human rights-based approach to housing. With respect to federal NHS initiatives, the federal government commits to open and timely information sharing with provinces and territories (PTs) and consulting with PTs on program design to coordinate between federal and provincial/territorial initiatives. PTs will be invited to participate in federal programs designed to increase affordable housing supply, such as the National Housing Co-

Investment Fund, by supporting decision-making and co-investing. Particulars of the federal-provincial/territorial partnership in the National Housing Co-Investment Fund and other federally managed initiatives will be determined between CMHC and each individual PT.

- The federal, provincial, and territorial governments will work within the FPT Forum on Housing - the primary FPT intergovernmental housing forum - to discuss housing policy and program design, as well as monitor and evaluate the state of housing in Canada. The Forum will also support the assessment of NHS effectiveness and use shared intelligence to inform decision-making, priority setting and adjustments to FPT agreements where appropriate.

FPT Partnership Principles

- As primary partners in housing, federal, provincial and territorial governments agree to:
 - a. Communicate, consult and work with each other and with municipalities, regional Indigenous governments and organizations, national Indigenous organizations, along with other organizations and stakeholders in a timely, open and transparent manner through the FPT Forum on Housing and other discussion tables;
 - b. Coordinate efforts to minimize duplication and ensure that housing and homelessness programs are delivered in the most efficient, effective way and build on each order of government's successes, experience and investments;
 - c. Provide the best possible service delivery that promotes ease of access to programs and initiatives and achieves positive outcomes for households in need and other clients;
 - d. Share data, information and research related to their activities and issues in support of outcomes;
 - e. Assume mutual accountability for the achievement of outcomes, as set out in the NHS, and report these outcomes to the public in an open, transparent, effective and timely manner;
 - f. Develop a coordinated approach to joint public communications at the project level, and more broadly on the NHS; and
 - g. Ensure government funding is well managed and supports achievement of outcomes (e.g. through regular audits and evaluations).

Bilateral Arrangements

- This Framework forms the basis for the development of bilateral arrangements that will include terms and conditions for: i) preservation and repair/regeneration of social housing, including Urban Native social housing units for those PTs that have taken on responsibility of this stock under existing social housing agreements, and expansion of the social housing stock; ii) support for PT priorities related to social and affordable housing repair, construction, and affordability support; iii) design and implementation of a Canada Housing Benefit; iv) and targeted northern funding for

the territories.

- The partners agree that effective investments and efficient delivery of housing and homelessness policies call for both multilateral and bilateral cooperation.
- Bilateral arrangements will include many common elements² as well as specific bilateral elements to be negotiated between the parties. They will also contain a provision that will allow PTs to amend their arrangement if a more favourable term related to common elements agreed to in this multilateral framework is negotiated with another province or territory and to make these terms available to other PTs.

Schedule 1: Bilateral Arrangements for PT-delivered NHS Investments

- Federal, provincial and territorial governments are primary partners in housing. The federal and provincial/territorial (F-PT) governments have a shared responsibility and complementary roles for housing with the provinces and territories having primary responsibility for the design and delivery of housing programs within their jurisdiction.
- PT governments will use funds provided under this framework to preserve, regenerate and expand social and community housing, support PT priorities related to housing repair, construction, and affordability support, and co-design and implement a new Canada Housing Benefit.
- Federal targets below will inform the development of mutually agreed to PT targets in bilateral agreements with the goal of achieving the following:

Maintain/increase social housing supply:

- 330,000 units continue to be offered in social housing
- A 15% expansion of rent-assisted units (approximately 50,000 units based on number of units still supported by social housing agreements in 2018-19)
- No net loss of Urban Native Social Housing units available to low-income households (baseline to be determined bilaterally)

Repair existing stock:

- At least 20% of existing social housing units repaired (approximately 60,000 units based on number of units still supported by social housing agreements in 2018-19)
- Retained Urban Native Social Housing units will be repaired to good condition

Direct affordability support to households:

² The main intent is to provide a consistent approach among the provinces and territories (except Quebec) through the common terms and conditions of a bi-lateral related to, for example, allocation other than specific targeted funding (i.e., funding for the North), eligible use of funding, cost sharing, reporting, action plans, communication protocols, audits and financial terms and conditions.

- f. At least 300,000 households adequately supported through a Canada Housing Benefit

Remove households from housing need:

- g. Overall, at least 490,000 households removed from housing need as a result of NHS funded housing interventions (ensuring an appropriate balance between targeting households in severe core housing need and core housing need)
- The following principles will apply to all NHS investments, including those cost-shared and delivered by PTs:
 - a. Protect housing affordability for low-income households living in social housing by first preserving, then expanding the current number of rent assisted units in social housing in the province or territory, providing a sufficient level of affordability support to ensure those households are not in housing need, without creating unintended disincentives to employment, education, etc., and improving the condition of the existing stock.
 - b. Prioritize housing investments to the community housing sector, while taking into account the different needs, priorities and contexts of particular jurisdictions. The community sector has a strong social mandate that is in line with the objectives of the NHS. Investments in the sector help to create the conditions for long-lasting success.
 - c. Promote social inclusion through mixed-income or mixed-use housing and by assisting the most vulnerable and those in greatest need, such as seniors, people with disabilities, women, girls, and their families, particularly those fleeing domestic violence, veterans, Indigenous people, visible minorities, refugees, people suffering from mental illness or substance dependence, etc.
 - d. Create liveable and inclusive communities by supporting social and affordable housing that is easily accessible to public transit, health services, education, early learning and child care facilities, and employment opportunities.
 - e. Promote environmental sustainability, energy efficiency, and local employment benefits. This includes through new and renewed (repaired) housing that exceeds national Energy Building Code standards for large projects, and community employment benefits and climate lens considerations under the Investing in Canada Plan.
 - f. Support good governance and financial stability of the community sector through greater openness, transparency, and accountability with partners across orders of government, as well as municipalities, and with the private and social sectors.
 - In addition to the above principles, all PT funding, including funds for preserving, regenerating and expanding social housing (including Urban Native Social Housing); support for PT priorities related to repair and construction needs; implementation of a Canada Housing Benefit; and targeted northern funding for the

territories are subject to mandatory requirements and use of fund conditions set out in this framework.

- Remedies (e.g. a suspension of funding) could be applied if the eligible use of funding, cost matching and accountability and reporting requirements are not met:

Eligible Use of Funding

- The following use of fund conditions will apply to the **Canada Community Housing Initiative, PT Priority Funding, and targeted northern funding for the territories:**
 - a. New construction/conversion of residential units, which may include up to 30% of total associated space available for non-residential amenities or purposes.
 - b. Repair, renovation, adaptation or regeneration of residential projects, which may include up to 30% of total associated space available for non-residential amenities or purposes.
 - c. Affordability support.
 - d. Eligible, incurred program management and administrative costs up to a maximum of 10%.
- Eligible use of funds under the **Canada Housing Benefit** will entail affordability support for households and/or individuals and administrative costs up to a maximum of 10%.

Cost-Matching

- The following cost-matching principles and/or requirements will apply to the **Canada Community Housing Initiative and PT Priority Funding:**
 - a. As primary partners with a shared goal to improve housing outcomes across Canada, federal housing funding to provinces and territories is cost-matched by provinces and territories.
 - b. Cost-matching may include capital costs, affordability assistance, and in-kind contributions (e.g. land development cost waivers). Cost-matching may also include, up to a limit of 20% of the PT cost-matching, housing support services intended to ensure housing retention, greater self-reliance for individuals, and social inclusion.
 - c. Required provincial or territorial cost matching may come from provincial or territorial governments and/or municipalities and a maximum of 50% may come from other eligible sources such as regional Indigenous governments and organizations, national Indigenous organizations, the private sector, voluntary sector charities and individual donors, excluding funding from CMHC and other federal sources.
 - d. PT investment in social and affordable housing that is outside of existing federal cost sharing requirements and contributes to the achievement of NHS outcomes and targets may be recognized as cost matching from April 1, 2018.
 - e. A PT investment cannot be used to meet multiple cost-matching requirements (i.e. no double counting).

- f. If a PT is unable to cost match the investment, their share of funds could be reallocated or delivered federally.
 - g. Eligible, incurred administrative costs will be recognized as cost-matching, up to a maximum of 10%.
- The above principles and requirements apply to the **Canada Housing Benefit** with the following modifications:
 - Cost-matching will take the form of direct affordability assistance to households and/or individuals; and
 - Required provincial or territorial cost matching, must come from the PT and/or municipalities, excluding funding from CMHC and other federal sources.
 - **Targeted northern funding** to the territories does not require cost-matching.
Accountability and Reporting

- The following planning and reporting requirements will apply to the **Canada Community Housing Initiative, PT Priority Funding, the Canada Housing Benefit and targeted northern funding** for the territories:

Action Plans

- a. PTs will publish action plans every three years outlining how all funds allocated to PTs are being or will be used, including those for protection, repair and regeneration of social housing and urban native social housing; support for other PT housing priorities, including investment in housing repair and construction; the creation of a new Canada Housing Benefit; and targeted northern funding for the territories.
 - b. Action plans will take into consideration efforts to modernize social housing including steps towards achieving greater social inclusion, environmental and financial sustainability, and upgrading the condition of social housing assets. In addition, over the longer-term, action plans will consider how to integrate the Canada Housing Benefit and existing project-based supports as a means of supporting transformation of social housing.
 - c. Action plans will benefit from consultation with municipalities and other stakeholders and account for each jurisdiction's demographic, social and economic circumstances.
 - d. PT action plans will also set annual targets for outcomes and indicators over the three-year planning period.
 - e. Additional indicators and targets associated with the Canada Housing benefit may be developed and negotiated through bilateral agreements.
 - f. PTs will provide progress reports to CMHC every six months on action plan items described above, which will form part of regular NHS assessments.
- Impacts of housing investments can take considerable time – especially in the North. PTs will report on NHS investments at mid-year and annually as data on projects becomes available, starting at the end of 2019/20 using the following indicators:

- a. Number of households removed from housing need by project-based subsidy or affordability assistance to the household, categorized by housing type, including social housing.
 - b. Total dollars committed and spent according to type of housing intervention, specifically new construction, repair/renewal, and affordability assistance
 - c. Number of renewed housing units by housing type and categorized according to type of intervention, specifically repair, renewal/revitalization, as well as, where applicable, by targeted housing program.
 - d. Number of new housing units categorized by housing type, and where applicable, categorized by targeted housing program.
 - e. Number of households receiving Canada Housing Benefit that are no longer facing housing affordability challenges.
 - f. Number of new housing projects that achieve reductions in energy consumption and greenhouse gas emissions.
 - g. Number of large repair and renewal housing projects that achieve reductions in energy consumption and greenhouse gas emissions.
 - h. Number and percentage of new, repaired, renewed and revitalized housing units considered accessible in a building as per the local or national building code, and, where applicable, categorized by targeted housing program.
- CMHC will report on NHS outcomes, at the project level (for new developments and large repair or renewal efforts of \$1M or more), as well as at provincial, territorial and national levels. The federal government will make public project-level information, while having regard to privacy considerations.
 - Employment and economic development will also be monitored, though targets will not be developed or measured against. PTs with housing projects with eligible costs valued at over \$10 million will report semi-annually where applicable on anticipated and actual job creation for targeted groups in planning and construction in work-hours, contracts awarded to small and medium-sized enterprises, and local training and workforce development.
 - The NHS applies a gender and diversity lens to its programs to ensure that programs result in the best possible outcomes for Canadians and to ensure that Canadians are not adversely impacted on the basis of gender and other identity factors. As such, gender and diversity impacts will be monitored and reported on where possible, though targets will not be developed or measured against.
 - In addition, the federal government, through data collected by federal surveys, will report on housing need, housing conditions and social, economic and environmental indicators at provincial, territorial and national levels. In these cases, provinces and territories will have advance notice of the results for their province or territory.

- Detailed reporting, information and data sharing agreements specific to each PT will be determined bilaterally.

Funding

- The following high-level descriptions are provided for each of the NHS funding categories covered under this framework. Specific funding allocations and other PT-specific details will be outlined in bilateral arrangements.

Canada Community Housing Initiative

- Predictable, long-term funding is provided to PTs to protect, regenerate and expand social housing through ongoing support to social housing providers delivering subsidized housing to low-income Canadians, including Urban Native Social Housing units.
- PTs have flexibility to use these funds to best suit the needs of their community housing³ sector, including increasing supply, and determining which units to protect and/or regenerate, as well as the appropriate depth of funding for a particular unit, as long as funding principles are upheld (e.g. households are adequately supported through affordability assistance.) Moreover, funds must be invested within the community-based or public housing sectors.
- Projects must also align with the overarching NHS principles and contribute to NHS outcomes.
- PTs will also ensure no net loss of Urban Native Units and will improve the condition of the retained units through repairs and/or capital replacement. All units will have adequate affordability support.
- PTs will have flexibility to use funds gained through social housing efficiencies (e.g. additional operating dollars will be available as social housing projects become more viable, either because mortgages are paid off or better management techniques are introduced, etc.) on other PT priorities related to housing affordability, repair and construction.

Support PT priorities

- PT priority funding is available from 2019-20 until 2026-27 to support regional needs and priorities related to social and affordable housing repair, construction and affordability support.
- PT priority funds gradually taper off by 2027-28 in order to prioritize funding for the Canada Housing Benefit, which begins in 2020-21.
- To ensure achievement of best possible outcomes, the allocation between the Canada Housing Benefit and funding for PT priorities will be mutually reviewed

³ The vision for community housing is the creation of housing (inclusive of non-profit, co-operative and public housing) that is guided by common principles outlined in the National Housing Strategy to ensure support for modern, efficient and effective systems that encourages social inclusion and is economically and socially sustainable.

every three years.

Canada Housing Benefit

- PTs will have an opportunity to co-develop, cost-match and deliver a Canada Housing Benefit for implementation in 2020-21, based on PT context and circumstances and aligned with NHS principles. For example, the benefit will be delivered to households or individuals; it will be suitable to the household and aligned with the principles and goals of the NHS (e.g. to reduce severe housing need); and it will protect against inflationary impacts through measures such as being prioritized in community housing or becoming progressively portable over time.

Targeted Funding for the North

- The territories will receive targeted funds to address their distinct needs. These funds are not cost-matched, but like all PT investments, they must align with the principles and other funding requirements, such as triennial action plans and reporting.
